## **Initial each box below to acknowledge that you have read and understand the full financial impact of the CEM billing component:**

I understand the CEM rate is a Time-of-Use (TOU) type of rate schedule. In particular, I am aware, any over production of electricity during any time related period (Off-Peak, Mid-Peak and On-Peak) is compensated at the specific time related buy-back amount as stated in Rate Schedule TOU (See attached Schedule-TOU and Schedule CEM)

I understand my TOU customer charge will now be increased to \$42.15.

I acknowledge CEM customers are trued up on a monthly basis, not annually.

I am aware there will be a peak monthly demand charge of \$4.50/kW.

I acknowledge there will also be a time related demand charges ranging from \$0 up to \$7.51, depending on the time period and season.

I am aware there is a one-time cost of the TOU meter, estimated at about \$500 and this cost is the responsibility of the customer.

## **Certification**

I hereby certify I am fully aware of and understand the above financial impacts inherent to the CEM/TOU rate and am willing to accept the responsibility of these components and the financial viability of the proposed distributed energy generation system located on my premises.
